

IN SUMMARY.

Things we'd like you to know

August 2012

New Planes. New Experience.

Introducing in-seat entertainment, Wi-Fi and powerports wherever you sit.

Watch the video

American Airlines continues plans to enhance and modernize travel with customer-pleasing interiors onboard its more than 200 new narrowbody deliveries from Airbus and Boeing, part of the previously announced order for 460 new aircraft.

- ➔ Overall design, trim and finish reflects the look and feel of the new American and complements the interior design scheme of the new Boeing 777-300ERs and redesigned 777-200ERs.
- ➔ Customers will keep connected with inflight Wi-Fi throughout, entertained with in-seat entertainment at every seat, and fully charged with individual 110-volt universal AC power outlets and USB jacks.

A321 flying in the USA from Coast to Coast

- ➔ The First Class cabin will be outfitted with 10 fully lie-flat First Class seats in a 1-1 configuration, giving every seat direct aisle access – a feature that no other domestic airline offers.
- ➔ The Business Class cabin will be outfitted with 20 fully lie-flat seats in a 2-2 configuration.
- ➔ The Main Cabin seats will be in a 3-3 configuration and there will be the option to enjoy more legroom with 36 Main Cabin Extra seats.
- ➔ Latest in inflight entertainment, seat-to-seat chat, live text news and weather updates, 3-D moving maps, airport maps, connecting gate information, and more. Premium class cabins feature a complimentary selection of up to 75 movies, more than 150 TV programmes, more than 350 audio selections and up to 15 games on a 15.4-inch HD-capable touchscreen monitor positioned in each seat.
- ➔ In the Main Cabin, every seatback has 8.9-inch HD-capable touchscreen monitor with an assortment of movies, TV programmes, games and audio selections
